The 2011 ML-Class

Mercedes-Benz

Built for the road, or a lack thereof.

There are many places worth visiting simply because they are off the beaten track. The 2011 ML-Class is sure to get you there in comfort and style. Whether you're heading through rough terrain or just facing difficult weather conditions, the ML-Class is ready to tackle whatever lies ahead.

With all the features you'd need for off-road driving, it's infinitely capable of handling the obstacles you'll run across in the urban jungle. Be it potholes, construction or standing water, the ML-Class makes the hazards of city driving disappear.

Its standard 7G-TRONIC 7-speed automatic transmission and 4MATIC™ permanent all-wheel drive with Electronic Traction System (4ETS) give you unparalleled control and ride comfort. Its robust engines ensure plenty of power. You'll also appreciate the numerous inner refinements.

New for the 2011 ML 350 4MATIC™, ML 350 BlueTEC and ML 550 4MATIC™ is the Avantgarde Edition and Grand Edition, offering more value than ever before. They're yet more proof that the ML-Class is everything you could ever want in a luxury SUV.

Bold in spirit, bold in design.

The ML-Class delivers an automotive presence like no other. It's an aura of power, excitement, and accomplishment. The striking visual presence begins at the front end, with dramatically styled headlights, an aggressive grille and new integrated LED daytime running lights[1]. The sloping hood leads the eye to pleasing lines along the sides of the vehicle, directly above strong, impactful wheel wells. This visual journey concludes at the rear of the ML-Class, where the lines abruptly merge and fade away into a functional, yet elegantly designed rear hatch and LED tail lights.

With rich and stunning details like alloy wheels, stainless steel under-ride protection, tinted glass, an imposing grille and chrome accents, the exterior of the ML-Class makes a bold visual statement that perfectly complements the power within.

[1]Standard on the ML 350 4MATIC™ and ML 350 BlueTEC. Not available on the ML 550 4MATIC™ and ML 63 AMG.

Once you step in, you won’t want to step out.

The generous use of space and high-quality materials inside the ML-Class ensure the highest degree of comfort. At first, you may notice the stylish ARTICO-covered door panels. But the moment you open the doors, your gaze is drawn to the bold interior design featuring luxuriously refined wood trim, a well-designed intuitive cockpit and exquisite ARTICO leather[1] seats.

Designed for intuitive operation, all essential driver’s seat adjustment possibilities such as cushion angle, height and backrest position are included with 3 individually retrievable positions. Leather upholstery is standard on the ML 550 4MATIC™ and available exclusively on the ML 63 AMG is AMG Nappa leather.

In the ML-Class, luxury and relaxation have hit their stride. At the touch of a button, the dual-zone THERMATIC automatic climate control[2] adjusts and maintains two separate temperature zones keeping both you and your front passenger in perfect harmony - especially if your ideas of comfort couldn’t be further apart. The ML 550 4MATIC™ and ML 63 AMG’s standard THERMOTRONIC 3-zone climate control ensures rear-seat passengers travel in comfort as well.

[1]Man-made leather. [2]Standard on the ML 350 BlueTEC and ML 350 4MATIC™. Not available on the ML 550 4MATIC™ and the ML 63 AMG.

ML 550 4MATIC™ shown.

Aggressively beautiful. Beautifully aggressive.

An already remarkable expression of both luxury and power, the ML 350 4MATIC™, ML 350 BlueTEC and ML 550 4MATIC™ push the limits of aggressive styling even further with the new Grand Edition. Available in Chromite Black or Diamond White, the exclusive Grand Edition ups the ante on looks with an AMG grille, dark tinted headlights and 20" 10-spoke bi-colour alloy wheels. The meticulous design sensibility continues as you open the door and step over the stainless-steel sill plates. Once inside, you'll notice how the unique black ARTICO leather[1] with contrast stitching and porcelain piping adorns both the interior and the dashboard, providing a visual harmony with the unique black headliner. Luxurious front headrests coupled with an ambient lighting package lets you feel instantly at home, while the AMG steering wheel with shift paddles above a 3D gauge cluster gives you ultimate control. As a final touch, sport pedals display prominently against the exclusive Grand Edition floor mats, a nod to the more aggressive character you've come to expect from the ML-Class.

The ML 550 Grand Edition features all of the unique Grand Edition content as outlined above in addition to genuine leather upholstery to add to its already striking features.

[1]Man-made leather. Standard on the ML 350 Grand Edition. [2]Standard on the ML 550 Grand Edition. Not available on the ML 350 Grand Edition.

Black leather[2] with contrast stitched seats, ARTICO leather dashboard and an AMG steering wheel are but a few of the special interior features that adorn the ML-Class Grand Edition.

The future at your fingertips.

The ML-Class boasts standard features, including the COMAND APS control system which features a 6.5-inch, high-resolution LCD colour display, an MP3-compatible video capable 6-disc DVD changer and an SD card slot. The Media Interface includes 3 different connection cables – one for your iPod®, a USB input for memory sticks and the auxiliary audio input.

SIRIUS Satellite Radio[1] is at your fingertips, integrated into your vehicle's audio system. It's easy and works seamlessly with your vehicle radio controls just like you expect your vehicle radio to work; including the ability to preset your favourite channels. Visit **sirius.ca/mercedesbenz** for more information about additional features.

With 120 channels of music, sports, news, talk, and comedy, SIRIUS brings you the freedom to choose your audio experience wherever you drive. With coast-to-coast reception coverage, listen to what you want, when you want, in your SIRIUS equipped ML-Class. And since every SIRIUS subscription includes free online listening, you can keep listening to SIRIUS in those moments when you only wish you were driving.

Whether it's listening to the latest news during the morning commute on CNN Radio, escaping the stress of work at the end of the day with Raw Dog Comedy, or enjoying the open road with your favourite song, SIRIUS delivers what you need wherever your journeys take you.

No matter what you choose to listen to, the harman/kardon® LOGIC7® surround sound system[2] will make you feel like you're right there enjoying the show.

In the ML-Class, safety and convenience go hand-in-hand. Bluetooth connectivity provides hands-free for cell phone use while driving. COMAND APS with hard drive-based navigation and the LINGUATRONIC voice control system accentuate the experience by allowing you domain over vehicle operations with simple spoken words. Likewise, the multifunction steering wheel can also be used to perform tasks - call up vehicle data, operate the radio and telephone, and even change gears using the shift buttons, all the while keeping your hands comfortably on the wheel.

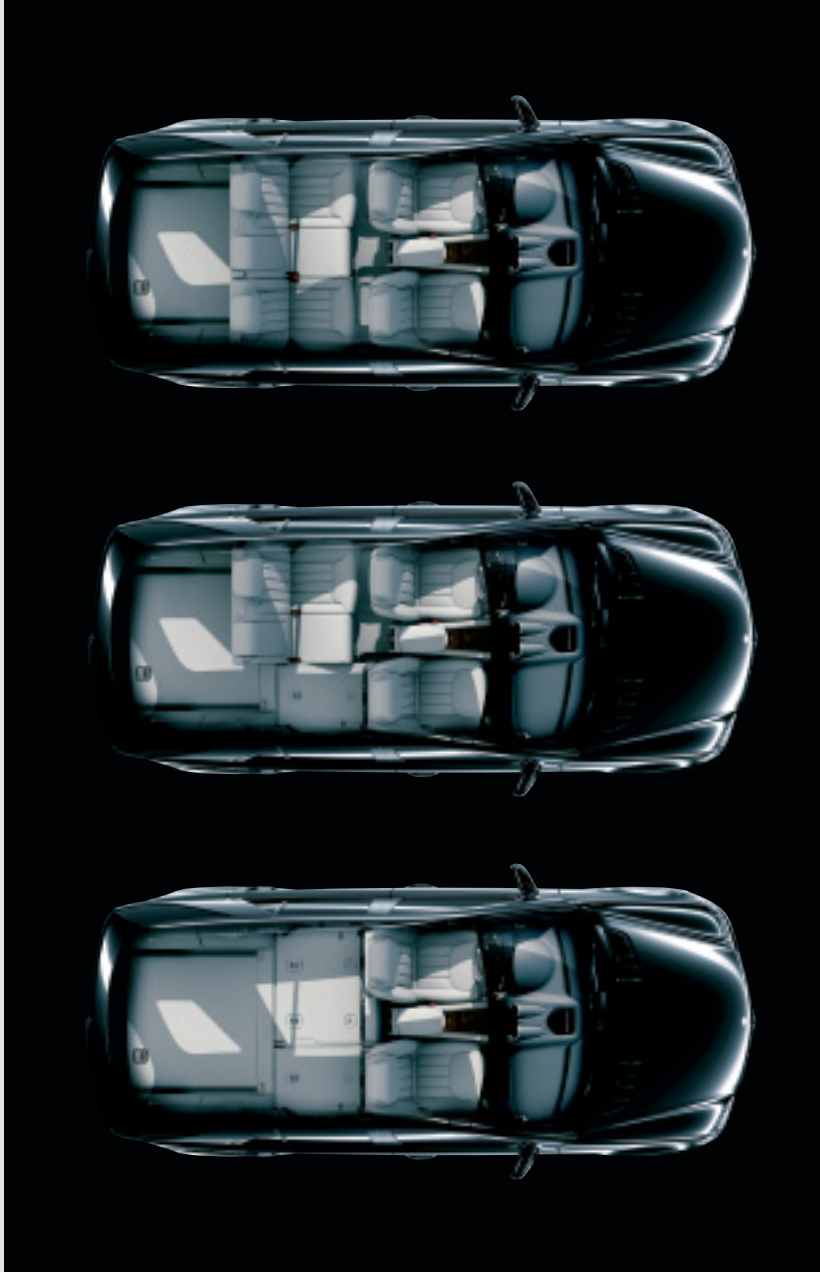
[1]© 2010 SIRIUS Satellite Radio Inc."SIRIUS," the SIRIUS dog logo and related marks are trademarks of SIRIUS Satellite Radio Inc. Complimentary 6 months of service included. Monthly subscription required for service thereafter. [2]Standard on the ML 550 4MATIC™ and the ML 63 AMG. Not available on the ML 350 BlueTEC and ML 350 4MATIC™.

SIRIUS SATELLITE RADIO

Manipulate space at will.

The ML-Class has plenty of headroom and legroom to ensure that everyone on board is comfortable. Should you need more room for luggage, the rear seat can easily be folded forward. The rear seat has a 1/3 to 2/3 split, allowing both sections to be folded forward separately.

You won't have to be too selective when deciding what to take with you in your ML-Class. With load space up to 2,050 litres, it certainly won't cramp your style. Securely stow smaller objects in the convenient side storage compartments, and for ultimate control, the EASY-PACK power tailgate features the ease and convenience of push-button operation.



Permanent confidence. Relentless control.

Our 4MATIC™ permanent all-wheel drive system gives you excellent control over your ML-Class, so you can drive with complete confidence, no matter what the season or road conditions. It is always engaged, relentlessly sending torque to each wheel independently, ensuring optimal traction and control.

4MATIC™ is aided by our 4-wheel Electronic Traction System (4ETS). 4ETS monitors each wheel for the first sign of wheel slip. It then individually brakes the slipping wheels to maintain the perfect balance of power and traction. By continuously ensuring that more power goes to the wheels with more grip, 4ETS can help keep you moving, even if only one wheel has traction.

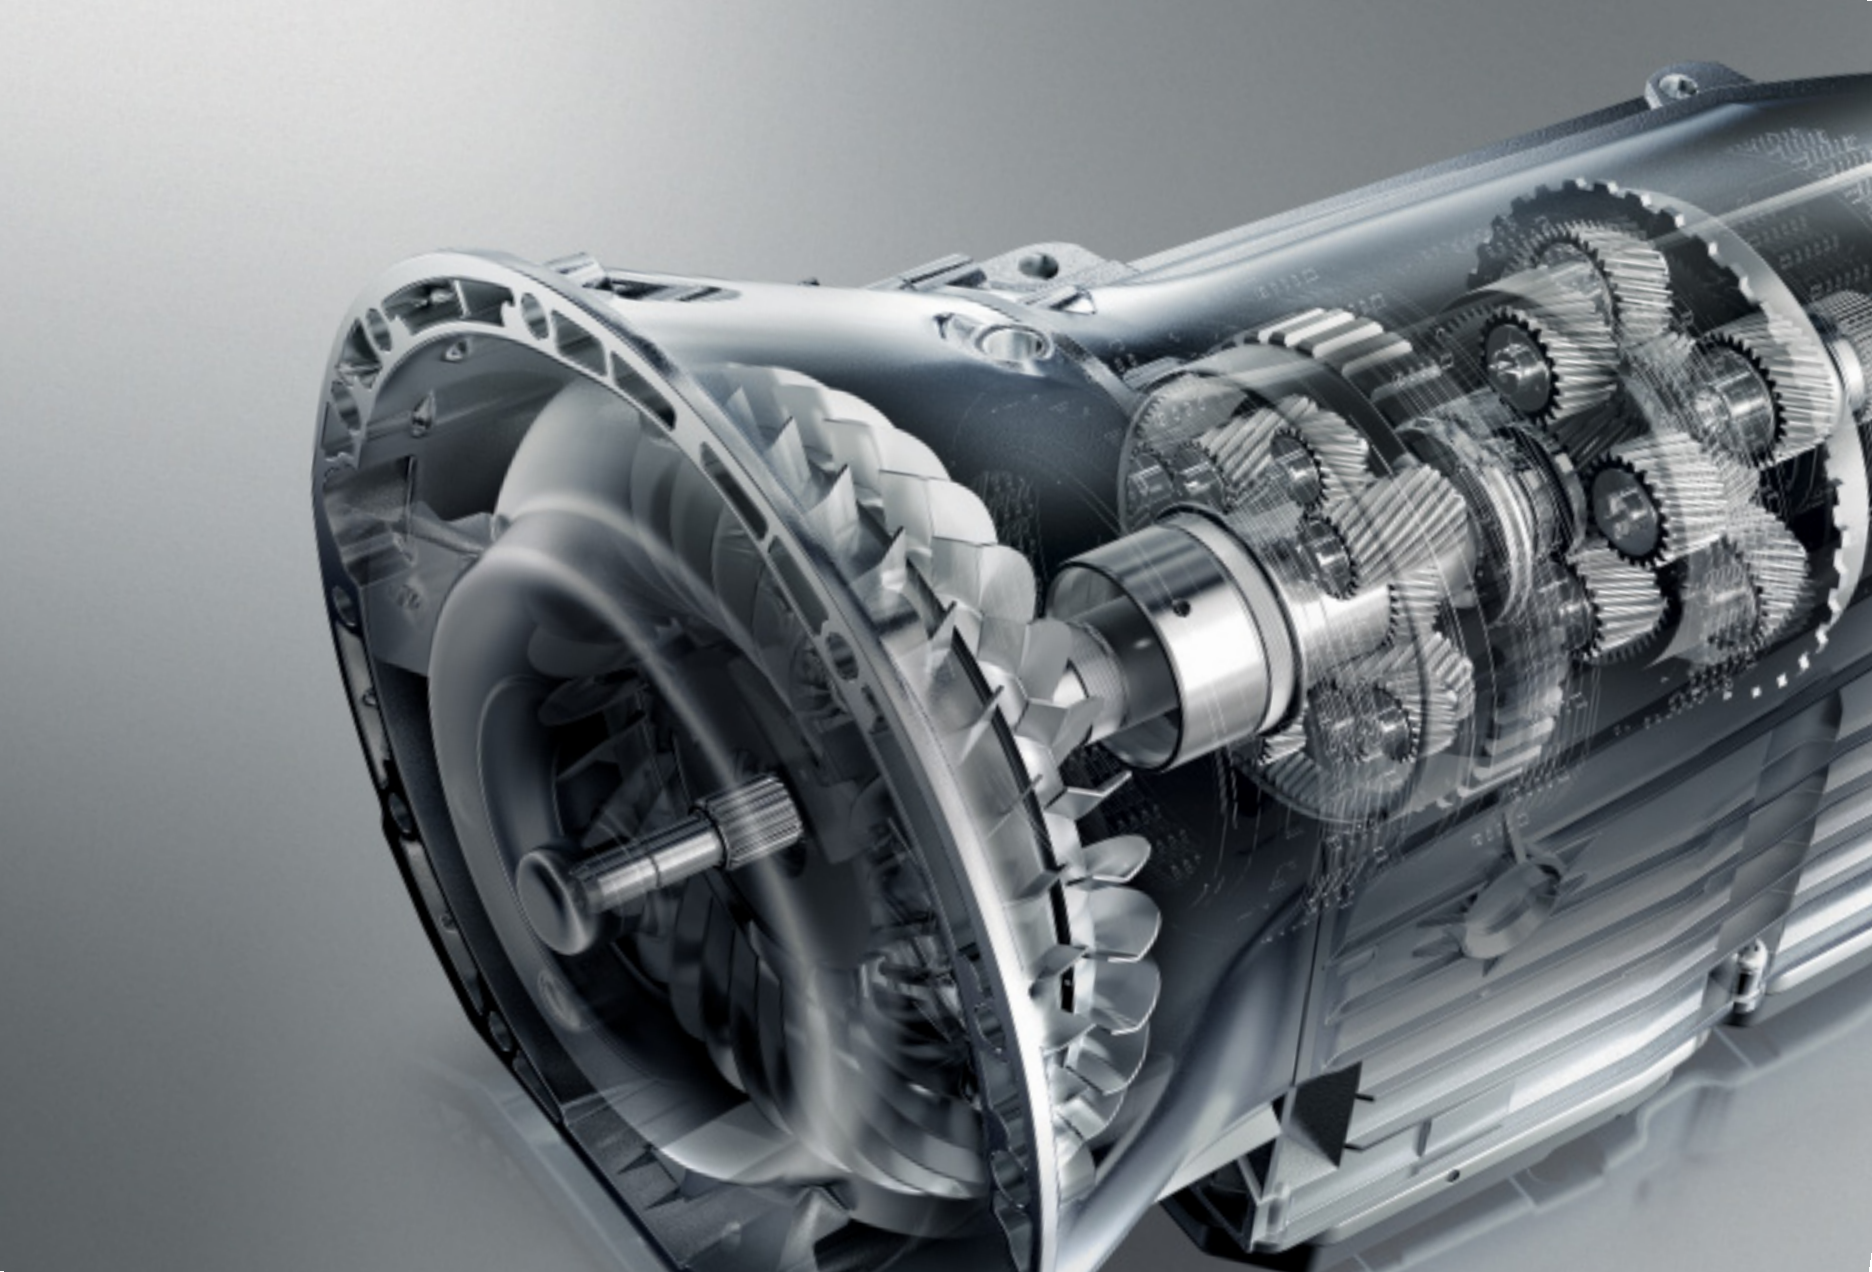
4MATIC™ TRACTION

The power to move you.

The gasoline engines available for the ML-Class provide the power and responsiveness you need to have an outstanding driving experience.

The V-6 engine in the ML 350 4MATIC™ provides high power and torque levels in combination with improved fuel economy and low emissions. It has 268 hp and maximum torque of 258 lb-ft.

If V-8 power and smoothness are what you want, look no further than the ML 550 4MATIC™. Despite its high power output, this engine consumes less fuel than you'd expect. And while it's hard to do justice to the pure power of the ML 550 4MATIC™ in words, it is easy to put a figure on it. It has 382 hp and maximum torque of 391 lb-ft. This allows it to accelerate from 0 to 100 km/h in less than six seconds.



Take comfort to a whole new level.

The ML-Class is fitted standard with the 7G-TRONIC 7-speed automatic transmission. Gears are selected directly, ensuring uninterrupted torque delivery, virtually imperceptible shifts and enhanced ride comfort. Should you need to brake sharply or accelerate quickly, 7G-TRONIC simply skips the necessary number of gears.

7G-TRONIC 7-speed automatic transmission also allows you to downshift manually using the shift paddles on the steering wheel if you'd like even more control over gear selection.

Ride like you are on air.

The ML-Class takes driving enjoyment to new levels – literally – with AIRMATIC Air Suspension[1]. When travelling at speed, the ride height of the ML-Class is automatically lowered. This minimizes drag, reduces fuel consumption, and improves handling. When you travel with a heavy payload, the air suspension keeps the ride height of the vehicle constant at all times.

Further to these features, AIRMATIC also includes the Adaptive Damping System (ADS) with its three manually selectable damper settings: ‘Auto’, ‘Sport’ and ‘Comfort’.

Enjoy a refined ride no matter what your driving conditions.

[1]Standard on the ML 550 4MATIC™ and ML 63 AMG. Not available on the ML 350 BlueTEC and ML 350 4MATIC™.

The powerful sound of silence.

It's amazing how quiet the six cylinder ML-Class BlueTEC diesel engine runs while delivering exemplary power in any driving condition. The ML 350 BlueTEC has a maximum power output of 210 hp, impressive 400 lb-ft of peak torque, a top speed of 210 km/h and a 0 to 100 km/h acceleration time of 8.7 seconds. Equipped with our next generation BlueTEC technology, this turbo-charged engine also meets the world's toughest exhaust emission regulations, while AdBlue injection, employing both the common-rail direct injection principle and a special particulate filter, makes it one of the world's cleanest diesel SUVs – eliminating more than 80% of nitrous oxide emissions.

With seamless performance and up to 1,150 km per tank,[1] the ML-Class BlueTEC diesel is yet another important step closer to the Mercedes-Benz goal of emission-free mobility.

The ML 350 BlueTEC's engine design helps maximize both engine efficiency and driving pleasure.

[1]Highway driving.

ML 350
S ON 4609

Sometimes a cage can be very liberating.

Included with all ML-Class models is the integral safety concept from Mercedes-Benz that combines intelligent, active and passive safety systems, ready to come to your assistance if needed to provide a stress-free driving experience.

The ML-Class features an extremely sturdy passenger cage that protects occupants by way of energy-absorbing front-end, reinforced doors, extended crumple zones, and an elevated ride position. The passenger cage is built on an exclusively designed SUV-specific uni-body that is exceptionally strong, lightweight and rigid. Its remarkable resistance to twisting and flexing leads to more precise handling, and a smoother, quieter ride.

Front seat passenger protection is further enhanced by our NECK-PRO head restraints. In the event of a rear-end impact, pre-tensioned springs push the head restraints on the driver and front passenger seats forward, bracing the heads of the front seat occupants and reducing the risk of whiplash.

The ML-Class starts and ends with safety.

Mercedes-Benz has always been a leader in safety innovation.
Here are the details on a few of the benchmarks.

ELECTRONIC STABILITY PROGRAM
The ML-Class' Electronic Stability Program (ESP®) enhances directional control by monitoring your steering and braking. It will make instantaneous adjustments if it senses loss of control or stability. If it senses oversteer or understeer, ESP® will apply the brakes and adjust engine torque to any combination of the four wheels to help you regain control and stay on course[1].

ACTIVE BI-XENON HEADLAMPS
Active Bi-Xenon headlamps with headlamp washers and LED daytime running lights provide better vision over long distances. They also actively swivel to either side based on your steering and driving speed, so you can better see what's happening around curves.

ADVANCED SEAT BELTS AND AIRBAGS
All five seat belts feature Emergency Tensioning Devices (ETDs), which help remove seat-belt slack in a sufficiently severe front or rear impact. Our advanced multi-stage front, side and window curtain airbags provide unequivocal passenger protection[2].

PASSIVE BLIND SPOT ASSIST
The ML-Class's Passive Blind Spot Assist[3] monitors vehicles around you when travelling over 30 km/h. If a vehicle remains in your blind spot for more than 1.5 seconds, a warning triangle appears on the exterior side mirror.

[1]No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Best performance in snow is obtained with winter tires. [2]WARNING: The forces of a deploying airbag can cause serious or fatal injuries to a child under age 13. Children under 13 should be seated in the back seat if possible. See Operator's Manual for additional warnings and information on airbags, seat belts and child seats. [3]Standard on the ML 350 4MATIC™, ML 350 BlueTEC and ML 550 4MATIC™. Available as part of the Premium Package on the ML 63 AMG.

Control the ultimate beast.

The ML 63 AMG is the ultimate expression of strength and aggression, and is found nowhere else on the road today. It features a front apron with a brushed stainless steel inlay, circular fog lamps ringed in chrome, additional air intakes, and a rear apron with chromed scratch protection, darkened headlamps and the exclusive power-dome hood, all new for 2011. Of course, with a look this sporty, it's important to have the right wheels. The AMG 21" twin 5-spoke alloy wheels harmonize perfectly with the AMG's style.

The AMG-built, 6.2-litre, naturally aspirated V-8 engine generates 503 hp and a maximum 465 lb-ft of torque, assuring that the ML 63 AMG performs beyond your expectations. It lets you accelerate from 0 to 100 km/h in a breathtaking 5.0 seconds. The AMG SPEEDSHIFT 7G-TRONIC 7-speed automatic transmission delivers remarkably short shifts. The AMG sport suspension beautifully handles the ML 63 AMG's torque, while the AMG high-performance braking system ensures optimum driving control.

Inside the ML 63 AMG you'll find the perfect conditions for top performance. AMG sport seats offer optimum support and are exceedingly comfortable. The AMG ergonomic sport steering wheel with shift paddles and AMG instrument cluster with a lap-clocking RACETIMER add an athletic feel. The AMG Nappa leather upholstery and brushed stainless steel sport pedals create a suitably aggressive atmosphere.

The bold, aggressive styling of the ML 63 AMG is the perfect visual complement to its exemplary power.

The icing on the ML-Class.

All Mercedes-Benz Genuine Accessories are a cut above, having been designed and manufactured to the highest standards for design, engineering, quality, form and function. They are an ideal way to add your own distinctive style to your already stunning ML-Class.

Roof rack and box

Need even more cargo carrying capacity? The ML-Class roof rack and box is an ideal solution. We have something to fit all of your needs with multiple sizes available.

20" two-tone 10-spoke wheels

Personalize your ML-Class with these unique black and polished finished wheels. They are sure to make a statement wherever your journey takes you.

Trunk tray and cargo box

Help protect the cargo area of your ML-Class with this custom fitted trunk tray. Formed from durable, easy-to-clean plastic and designed to fit your vehicle perfectly. A cargo box will help keep the items in your trunk organized and help prevent them from moving around when the vehicle is in motion.

Roof spoiler

The roof spoiler is precision tailored to compliment the striking and sporty look of the ML-Class.

[1]Stated rates of acceleration are based upon the manufacturer's track results and may vary depending upon model, environmental and road surface conditions, driving style, elevation and vehicle load. [2]Electronically limited. [3]These estimates are based on Transport Canada testing methods. The actual fuel consumption of this vehicle may vary. Refer to the *Fuel Consumption Guide*. [4]Dimensions shown are for models with standard equipment.

A passion for things done right.

It's what you expect from Mercedes-Benz. A passion for craftsmanship and attention to detail is what sets Mercedes-Benz apart from all other manufacturers. This passion drives us to set new standards in design, performance, comfort and safety. To continually build on the legendary traditions of Mercedes-Benz, and to provide you with an ownership experience unlike any other, including the valuable benefits described below.

24-hour Roadside Assistance

During the basic warranty coverage of 48 months and the time duration of the optional Extended Limited Warranty, Mercedes-Benz Roadside Assistance will be at your service. We'll bring you some gas, replace a flat tire with your spare, or jumpstart your car. In the event of a mechanical breakdown, if attempts by our Roadside Assistance technician have not made your vehicle safely operable, towing service will be provided to the nearest Mercedes-Benz dealership. Assistance is available 24 hours a day, every day, to anyone driving a Mercedes-Benz anywhere in Canada or the continental U.S.[1]

Wear and tear period

The following parts listed are covered for wear and tear during the first 24 months or 40,000 km, whichever comes first. Brake pads, brake discs, brake pad wear sensors and light bulbs.

Mercedes-Benz warranties

The Mercedes-Benz New Vehicle Limited Warranty covers defects in materials or workmanship for 48 months or 80,000 km, whichever comes first. To widen your window of confidence, you can opt for a Mercedes-Benz Extended Limited Warranty as well[2].

Customer service

Owning a Mercedes-Benz means that when you have a question, we're here to help. Customer Service is open from 9 a.m. to 5 p.m. EST, Monday through Friday, and is staffed with knowledgeable Mercedes-Benz people who can talk you through the finer points of working your car's audio system — or even assist you in locating the nearest Mercedes-Benz dealership. Just call 1-800-387-0100. It's that simple.

Trip interruption reimbursement

If a breakdown covered by your New Vehicle Limited Warranty or optional Extended Limited Warranty occurs more than 80 km from your home, leaves your Mercedes-Benz vehicle inoperable or unsafe to drive, and requires overnight repairs, we've got you covered. You will be reimbursed up to $500 for hotel accommodations and up to $600 for alternative travel expenses per incident while your car is being repaired at an authorized Mercedes-Benz dealership.

[1]Vehicle must be accessible from main roads. Roadside Assistance may involve charges for parts, service and towing. Depending on the circumstances, these services may be provided by an outside service provider, courtesy of Mercedes-Benz Roadside Assistance. For full details of the Roadside Assistance Program, please see your dealer. [2]Please see your dealer for warranty details as well as for terms, conditions and pricing for extended warranty options.

There's virtually so much more.

Visit **mercedes-benz.ca** and open an online window to Mercedes-Benz Canada. Revel in the incredible photography of our vehicles and get a visceral impression of what it would be like to see yourself behind the wheel. Get information about any of our vehicles, including financing and leasing options, upcoming models, and how to configure your own ideal Mercedes online. Our website also offers details about the Mercedes-Benz Extended Limited Warranty, vehicle ownership, and much more on the fascinating story behind one of the world's most recognizable brands.

To be continued. With a test drive.

Nowhere is a Mercedes-Benz so convincing as on the road. It is only there that you can fully experience the effortlessly superior handling that makes this car so special. You can feel how the powerful engine drives the vehicle onwards and how the precise steering movements have a direct effect on your own mood. The special atmosphere that arises during a drive in a Mercedes-Benz cannot be put down on paper. That's why we would like to invite you to reserve an appointment for a test drive at your local Mercedes-Benz dealer. Or visit **mercedes-benz.ca**. We look forward to seeing you.
